

Fab 5 Tools for 2015

Category	Item Number	Item Name	List Price	Minimum Qty	Item Description	Item Image
Tools	GPDI0429	Black Line Metal 01	\$ 25.00	9	Extremely aggressive low grit double bar used for extensive stock and rigid thick coating removal. Also an excellent tool for prepping a floor prior to applying an epoxy.	
Tools	GPDI0425	Black Line Metal 02	\$ 25.00	9	Very aggressive medium-low grit double bar used to remove shaver lines, mastics, or the first cut on extremely hard concrete.	
Tools	GPDI0426	Black Line Metal 03	\$ 25.00	9	Aggressive medium grit double bar used for first cut on hard concrete or to follow the Black Line 02.	
Tools	GPDI0427	Black Line Metal 04	\$ 25.00	9	Lesser aggressive medium-high grit double bar. Great for the first cut on medium hardness concrete or to follow the Black Line 03.	
Tools	GPDI0428	Black Line Metal 05	\$ 25.00	9	Least aggressive high grit double bar used to remove scratches from the Black Line 04.	
Tools	GPDI0388	T3 Cutter 40 Grit Purple	\$ 25.00	9	Very aggressive 40 grit cutting tool used on new construction when over trowelled to a black and blue finish. Can be used wet or dry.	
Tools	GPDI0389	T3 Cutter 80 Grit Orange	\$ 25.00	9	Our most popular 80 grit cutting tool used for the initial grind in many "big box" retailers and new construction when the concrete is not over trowelled. Also the first step in our 3, 2, 1 system.	

Tools	GPDI0434	Sektor Tools Step #1	\$ 22.00	9	The first step of the fastest, easiest and most versatile polishing system on the market. This system adapats to any active planetary grinder. Step #1 will leave a tight yet honed finish.	
Tools	GPDI0435	Sektor Tools Step #2	\$ 22.00	9	The second step of the fastest, easiest and most versatile polishing system on the market. This system adapats to any active planetary grinder. Step #2 will leave a matt finish.	
Tools	GPDI0436	Sektor Tools Step #3	\$ 22.00	9	The third step of the fastest, easiest and most versatile polishing system on the market. This system adapats to any active planetary grinder. Step #3 will leave a low-sheen finish.	
Tools	GPDI0437	Sektor Tools Step #4	\$ 22.00	9	The fourth step of the fastest, easiest and most versatile polishing system on the market. This system adapats to any active planetary grinder. Step #4 will leave a high-sheen finish.	
Tools	GPDI0438	Sektor Tools Step #5	\$ 22.00	9	The fifth and final step of the fastest, easiest and most versatile polishing system on the market. Step #5 will leave a high-gloss finish with unparralelled clarity.	
Tools	MTPT0141	11 inch Harpoon Hook Ring	\$ 25.00	3	11 inch diameter ring that velcros to a resin drive plate. The large heavy duty hooks ensure the hogs hair pad is secured to the bottom of the head durring high speed operation.	
Tools	MTSP0229	11 inch Hogs Hair Pad --- Box of 5	\$ 15.00	1	11" hogs hair pads are used to secure the Sektor tools to the harpoon hook ring. They allow flexibility to roll with the floor as well as clean up any swirl marks as you go...even with #1 and #2.	

Tools	GPDI0446	Mach 0 Tool	\$ 42.00	9	Specially formulated resin that cuts like a metal with exceptional life (up to 7500 ft2.) The Mach 0 is a very aggressive tool for very hard concrete. If your customers like Sase Quik Cut they will LOVE the CPS Mach tools.	
Tools	GPDI0447	Mach 1 Tool	\$ 42.00	9	Specially formulated resin that cuts like a metal with exceptional life (up to 7500 ft2.) The Mach 1 is an aggressive tool for medium to hard concrete. If your customers like Sase Quik Cut they will LOVE the CPS Mach tools.	
Tools	GPDI0448	Mach 2 Tool	\$ 42.00	9	Specially formulated resin that cuts like a metal with exceptional life (up to 7500 ft2.) The Mach 2 is an aggressive tool for medium to hard concrete and follows the Mach 1. If your customers like Sase Quik Cut they will LOVE the CPS Mach tools.	
Tools	GPDI0449	Mach 3 Tool	\$ 42.00	9	Specially formulated resin that cuts like a metal with exceptional life (up to 7500 ft2.) The Mach 3 is an aggressive tool for medium to hard concrete and follows the Mach 2. If your customers like Sase Quik Cut they will LOVE the CPS Mach tools.	
Tools	GPDI0439	Aqua Resin Step #1	\$ 26.00	9	The first tool in our all new 3 step wet cutting system. High quality epoxy resin designed specifically for those jobs where cutting dry is not an option. 3 steps means less labor and higher profits.	
Tools	GPDI0440	Aqua Resin Step #2	\$ 26.00	9	The second tool in our all wet system refines the floor and removes the coarse scratches from step #1. High quality epoxy resin guarantees consistent quality and long life.	
Tools	GPDI0441	Aqua Resin Step #3	\$ 26.00	9	The final step in our 3 step all wet process leaves the floor with a consistent satin sheen. Burnish and use our CPS Armor Surface Shield to enhance the shine and give years of stain protection.	
Tools	GPDI0445K	3 Buckets 2 Days 1 Blinging Floor	\$ 2,400.00	1	Finally a COMPLETE system from first cut to final seal with the easiest and most efficient polishing system on the market. Compatible with all major grinders. Each kit contains tools, chemicals, burnishing pads, and holders for approx 7000 ft2.
